

PLZ-22-18

City of Greensboro Planning Department Zoning Staff Report

City Council Hearing Date: June 21, 2022

GENERAL INFORMATION

APPLICANT	City of Greensboro
HEARING TYPE	Original Zoning Request
REQUEST	County RS-40 (Residential Single-family) and County MXU (Mixed Use) to City C-M (Commercial - Medium)
CONDITIONS	N/A
LOCATION	A portion of Sapp Road right-of-way from the existing City limit line extending in a westerly direction for approximately 710 feet
PARCEL ID NUMBER(S)	N/A
PUBLIC NOTIFICATION	The notification area for this public hearing was 600 feet (Chapter 30-4-1.4 of the Land Development Ordinance requires notification of the owner of that parcel of land and the owners of all parcels of land adjoining and contiguous to that parcel of land as shown on the County tax listing). 215 notices were mailed to those property owners in the mailing area.
TRACT SIZE	0.85 Acres
TOPOGRAPHY	Generally flat
VEGETATION	None

SITE DATA

Existing Use	Sapp Road	
	Adjacent Zoning	Adjacent Land Uses
N	County RS-40 (Residential Single-family)	Single-family dwellings, undeveloped land, and a natural gas utility pump station
E	City CD-C-M (Conditional District – Commercial - Medium)	Sapp Road

S	City CD-C-M (Conditional District – Commercial - Medium)	Shopping center
W	County RS-40 (Residential Single-family) and County MXU (Mixed Use)	Sapp Road

Zoning History

Case #	Effective Date	Request Summary
N/A	N/A	The subject property is not currently located in the City's jurisdiction.

ZONING DISTRICT STANDARDS

District Summary *

Zoning District Designation:	Existing (County MXU)	Existing (County RS-40)	Requested (City C-M)
Max. Density:	8.7 units per acre for single-family and 20.28 units per acre for multi-family	1 unit per acre	N/A
Typical Uses	Typical uses in the MXU district include a mix of high-intensity residential, retail, and commercial uses compatible with adjacent development.	Typical uses in the County RS-40 district include single family dwellings with a density of not less than 1.0 unit per acre.	Typical uses in the C-M district may include various retail, restaurant, office and service uses.

**These regulations may not reflect all requirements for all situations; see the City of Greensboro Land Development Ordinance for all applicable regulations for site requirements for this zoning district.*

SPECIAL INFORMATION

Overlay District Ordinance/Historic Preservation

The subject site is not located in an overlay zoning district.

The subject site is not:

- Located in a City of Greensboro Historic District or Heritage Community
- Designated as a Guilford County Landmark Property
- Recognized as a State of North Carolina Historic Site
- Listed in the National Register of Historic Places
- Located in a National Register Historic District

Environmental/Soils

Water Supply Watershed Site drains to Upper Randleman Lake, WS-IV, Watersupply Watershed, Deep River sub-basin

Floodplains N/A

Streams N/A

Other: All new BUA must be treated by a State approved water quality device. Water Quantity Control must also be addressed. Maximum High Density development with sewer is 70% BUA, Low Density with sewer is 12% BUA. Site is within the PTI 5 statue mile radius. Any proposed water quality device BMP/SCM that holds a normal pool elevation is not allowed unless supporting engineering documentation is provided that clearly explains why a water quality device that holds a normal pool elevation needs to be utilized.

Utilities (Availability)

Water is available on Guilford College Road and Sapp Road. Sewer is available to the southeast of the properties on Sapp Road. Private developer will need to extend water and sewer to City of Greensboro’s Water and Sewer Design Standards.

Airport Overlay District & Noise Cone

n/a

Landscaping & Tree Conservation Requirements

Landscaping and Tree Conservation requirements are not applicable within street rights-of-way.

Transportation

Street Classification: Guilford College Road – Major Thoroughfare.
Sapp Road – Local Street.

Site Access: N/A.

Traffic Counts: None Available.

Trip Generation: N/A.

Sidewalks: N/A.

Transit in Vicinity: N/A.

Traffic Impact Study: No TIS required per TIS Ordinance.
(TIS)

Street Connectivity: N/A.

Other: N/A.

IMPACT/POLICY ANALYSIS

Land Use Compatibility

The proposed **City C-M (Commercial - Medium)** zoning district would allow land uses that are compatible with the general character of the area.

GSO 2040 Comprehensive Plan Policies

The GSO 2040 Future Land Use Map designates this location as **Residential**. The proposed **City C-M (Commercial - Medium)** zoning district would allow uses that are generally consistent with those described in the **Residential** future land use designation. When located in areas designated by the Future Land Use Map as Residential, uses other than single family residential and multi-family residential should generally be in the scale of a **Neighborhood-** or a **District-Scaled Activity Center** as described in the Future Built Form Map, in a form that is appropriate to the character of the area. The GSO 2040 Future Built Form Map designates the subject site as **Urban General**. The Growth Tiers map identifies the subject site as being within **Growth Tier 1**.

GSO 2040 Written Policies

Filling In Our Framework - How we arrange our land uses for where we live, work, attend school, shop and enjoy our free time can create a more vibrant and livable Greensboro.

Goal A - Greensboro is recognized and admired for its attractive, walkable and compact mixed-use activity centers where people live, work and enjoy life.

Strategy 1 - Encourage higher density, mixed-use, walkable infill development.

Strategy 2 – Ensure mixed use projects both strengthen and add value to the Community.

Goal B – Greensboro attracts world-class development to transform underutilized sites and buildings into valued assets that complement their surroundings.

Strategy 1 – Maintain, inventory, and market key underutilized sites and structures to private industry and developers.

Goal C – People choose to live in Greensboro because every neighborhood is safe and has convenient access to first-rate schools, services, shopping, parks, and community facilities.

Strategy 1 – Employ a problem prevention model to identify causes and solutions to neighborhood problems.

Creating Great Places - Creating interesting and attractive places and vibrant public spaces in neighborhoods, across Greensboro, in downtown and with our historic resources.

Goal A - Greensboro’s citywide network of unique neighborhoods offer residents of all walks of life a variety of quality housing choices.

Strategy 1 – Protect and enhance the unique character of every neighborhood.

Strategy 2 - Meet housing needs and desires with a sufficient and diverse supply of housing products, prices and locations.

Becoming Car Optional - Expand quality transportation options beyond cars and maintain an efficient transportation system that allows people and goods to travel throughout Greensboro.

Goal A - Greensboro has unrivaled pedestrian, biking, transit and road networks that provide safe, comfortable, and convenient transportation options.

Strategy 2 – Encourage new development that is compatible with the intended use of the adjacent roadway.

Goal B - Everyone loves our interconnected green spaces, which provide recreation and transportation opportunities, promote active living, and protect our natural environment.

Strategy 1 - Expand the greenway network to connect all parts of the city as a key element of the transportation system.

Prioritizing Sustainability - Greensboro has a strong leadership role in environmental stewardship, social equity, and a resilient economy.

Goal A - Greensboro advances environmental stewardship, taking care of our natural resources and the natural systems that support all living things.

Strategy 1 - Promote resilient, efficient and environmentally beneficial patterns of land use.

Goal B - Greensboro embraces social equity, ensuring all residents benefit from fair and just treatment in the distribution of public services and have a voice in governance.

Strategy 2 – Work to ensure that all Greensboro residents have meaningful opportunities to participate in public decision-making processes.

Strategy 3 – Promote a just, ethical, and respectful community.

Goal C - Greensboro builds economic resilience, expanding the local economy’s ability to withstand and adjust to disruptions and changes at the regional, national and global scales.

Strategy 1 - Consider the impact that growth and development patterns and infrastructure investments have on the City’s fiscal health.

Building Community Connections - Greensboro is unique and memorable based on our quality of life, culture, arts and places and the ties that bind us together as a community.

Goal E – Everyone does their part to maintain stable, attractive, and healthy places to live and raise families.

Strategy 1 – Build upon successful community initiatives to improve housing conditions while encouraging community involvement and participation.

Strategy 2 – Build neighborhood association capacity to work collaboratively, assess conditions, and effect change.

Growing Economic Competitiveness - Greensboro will build a prosperous, resilient economy that creates equitable opportunities to succeed.

Goal C – Investment in cutting edge communications technology enhances the quality of life for all residents and helps businesses thrive.

Strategy 1 – Encourage fiber-ready infrastructure to reduce the need for costly future upfits, increase property values and promote economic growth.

GSO 2040 Map Policies

Future Land Use Map

Future Land Uses: Broad areas based on the main character of land uses that we want to see in the future. These are not intended to be exclusive; it is assumed that there are a variety of uses in each area, but the designation reflects the area’s predominant character.

Residential: Includes both single and multifamily residential. Other uses should generally be in the scale of a Neighborhood- or a District- Scaled Activity Center as described in the Future Built Form Map, in a form that is appropriate to the character of the area. Many residential areas include commercial corridors, and future development along these corridors should be oriented to the corridor to avoid negative impacts to adjacent residences.

Future Built Form Map

Place Types: Areas that have a consistency of character, identity or purpose and that are most often bounded by corridors, natural features, or parks that create transition or separation from other neighborhoods that may not share the same characteristics.

Urban General should reflect these characteristics:

1. Setbacks, building orientation, building materials, height, and scale of residential buildings are considered within the existing neighborhood context.

2. New housing helps increase the range of choice, supply, and adds additional appropriately-scaled density with: Missing Middle housing; mid-rise multi-family; and high-rise multi-family in Activity Centers and along Mixed-Use Corridors.
3. Transitions between neighborhoods and different land uses provide continuity in scale, density, intensity with adjacent uses.
4. Cut-through traffic is minimized.
5. New freestanding or expanded business areas are created within or adjoining an existing Activity Center or as part of creating a new Activity Center.
6. Exterior building materials are durable, sustainable, and contribute positively to the character of the public realm.
7. The size and impact of surface parking lots is minimized through landscaping, screening, narrow curb-cuts, and use of glare-free, no-spill lighting.
8. New sidewalks contribute to the completion of a sidewalk network.

Activity Centers: Ranging in size from a corner business at the intersection of two collector roads to regional shopping centers, activity centers attract people and are often the focus of community, civic, and social or commercial activity. Location, accessibility, size, and the extent and diversity of activities within an activity center influence the nature of economic development opportunities, potential impacts on nearby uses, and the way in which it is enjoyed by the community.

Neighborhood and District Scaled Activity Centers should reflect these characteristics:

1. Development (site and buildings) is properly scaled to the needs of residents in the appropriate market area. The scale and types of activities accommodated match the service area. A District Scaled Activity Center is physically larger, serves a wider market area, and has a greater breadth of businesses, services, and activities than a Neighborhood Activity Center, and draws vehicular traffic from a larger area, requiring more space for parking, loading, and greater spacing between vehicular access driveways.
2. Development adjacent to residential neighborhoods, parks, or other low intensity uses gives consideration to light, traffic, noise, and other potential impacts of the development.
3. Buildings and uses are easy to access on foot or by bike. These Centers include safe paths, bike racks, benches and other amenities for non-motorized travelers.
4. These Centers coordinate adjacent site designs and public improvements to provide comfortable sidewalk space for pedestrian movement, curb “bump-out” extensions, street trees/lighting/furniture, sidewalk cafés, and an active pedestrian-friendly environment.

Growth Tiers Map

Growth Tiers: areas outside Greensboro’s city limits but inside the area in which the City can legally annex property and extend water and sewer services; this is called the Water Sewer Service Area (WSSA). Three tiers are delineated based on the cost to extend City services to the area, primarily water and sewer, solid waste collection, and Police and Fire protection, as well as long-term maintenance of City facilities. In Growth Tier 1, due to the nearby presence of existing City infrastructure, the City is able to extend services currently, if an annexation is requested; Tiers 2 and 3 will require significant City investment to serve.

Growth Tier 1: This is the area where infrastructure systems are in place, can be economically provided and/or will be proactively extended and where continued

annexation and consolidation of the City's development pattern shall be encouraged over the next six years.

CONFORMITY WITH OTHER PLANS

City Plans

Sustainability Action Plan

Element 1) Transportation and Land Use:

Policy 1) Encourage increased density, a mix of land uses and more integrated links between transportation and land use through changes to Greensboro's Comprehensive Plan, Development Ordinance and other related plans.

Element 2) Green Jobs and Buildings:

Policy 3) Develop a coordinated City program to provide technical support, energy audits and education and outreach to increase energy efficiency and conservation in commercial and residential buildings.

Policy 4) Use a combination of code changes, incentives, partnerships and education to promote green building in Greensboro.

Policy 6) Promote more efficient use of water through education, partnerships and pilot projects.

Element 3) Waste Reduction and Recycling:

Policy 7) Employ a combination of expanded recycling infrastructure, regulations and incentives to increase Greensboro's solid waste diversion and recycling rates.

Element 6) Education and Outreach:

Policy 11) Provide technical support, awards and recognition to individuals and organizations furthering Greensboro's energy and sustainability efforts.

Other Plans

N/A

STAFF ANALYSIS AND RECOMMENDATION

Community Outreach

Applicant is strongly encouraged to discuss this proposed original zoning and development with owners of surrounding properties and with representatives of the Charlestowne Village Neighborhood (the boundaries of which, as identified by said neighborhood, the subject site is located adjacent to).

Staff Annexation Analysis

The subject property is currently located in the County. On September 1, 2020 the Planning and Zoning Commission assumed responsibility for reviewing annexation petitions and making a recommendation to City Council regarding annexation requests. Upon submittal of a valid annexation petition, Planning staff forwards annexation requests to City services providers. These service providers include Water Resources (water and sewer), Fire Marshal's Office, Police Department, and Solid Waste (trash and recycling services). Each service provider stated that infrastructure is in place to provide City services to this location. The Technical Review Committee recommended approval of this annexation request at its May 2, 2022 meeting. The subject property is located within the Tier 1 Growth Area on the Growth Strategy map in the Comprehensive Plan. Since this property can be served by City utility providers, it is the City of Greensboro's policy to annex the property pending approval of the associated original zoning.

Staff Original Zoning Analysis

The subject property is approximately 0.85 acres and currently contains a portion of Sapp Road. North of the subject property contains single-family dwellings, undeveloped land, and a natural gas utility pump station, zoned County RS-40. East of the subject property contains Sapp Road, zoned City CD-C-M. South of the subject property contains a shopping center, zoned City CD-C-M. West of the subject property contains Sapp Road, zoned County RS-40 and County MXU.

The proposed original zoning request supports the Comprehensive Plan’s Growing Economic Competitiveness Big Idea to build a prosperous, resilient economy that creates equitable opportunities to succeed and the Comprehensive Plan’s Prioritizing Sustainability Goal to build economic resilience, expanding the local economy’s ability to withstand and adjust to disruptions and changes at the regional, national and global scales.

The Comprehensive Plan’s Future Land Use Map designates this property as Residential. The Residential designation includes both single-and multi-family residential. Other uses should generally be in the scale of a Neighborhood- or a District- Scaled Activity Center as described in the Future Built Form Map, in a form that is appropriate to the character of the area. Many residential areas include commercial corridors, and future development along these corridors should be oriented to the corridor to avoid negative impacts to adjacent residences.

The Comprehensive Plan’s Future Built Form Map currently designates this property as Urban General. Applicable characteristics of the Urban General classification include, but are not limited the following:

1. Setbacks, building orientation, building materials, height, and scale of residential buildings are considered within the existing neighborhood context.
2. New housing helps increase the range of choice, supply, and adds additional appropriately-scaled density with: Missing Middle housing; mid-rise multi-family; and high-rise multi-family in Activity Centers and along Mixed-Use Corridors.
3. Transitions between neighborhoods and different land uses provide continuity in scale, density, intensity with adjacent uses.
4. Cut-through traffic is minimized.
5. New freestanding or expanded business areas are created within or adjoining an existing Activity Center or as part of creating a new Activity Center.
6. Exterior building materials are durable, sustainable, and contribute positively to the character of the public realm.
7. The size and impact of surface parking lots is minimized through landscaping, screening, narrow curb-cuts, and use of glare-free, no-spill lighting.
8. New sidewalks contribute to the completion of a sidewalk network.

The proposed C-M zoning district would permit a variety of commercial, retail, office and service uses that are compatible with existing uses on adjacent tracts (zoned both CD-C-M and CD-C-H)

This request is consistent with the intent and purpose of the zoning code, the Comprehensive Plan (GSO2040) and is generally compatible with the existing development and trend in the surrounding area.

Staff Recommendation

Staff recommends **approval** of the requested **C-M (Commercial - Medium)** zoning district.
