**Council District:** All

**Public Hearing:** No

**Advertising Date/By:** N/A

**Contact 1 and Phone:** Michael Borchers, 336-373-2494

**Contact 2 and Phone:** Virginia Spillman, 336-373-3260

**PURPOSE:**

Water Resources Department is requesting approval for a Professional Services contract for Stormwater project management and engineering services in the amount of \$380,000 with Stantec Consulting Services Inc.

**BACKGROUND:**

Water Resources has an established program to respond to citizen inquiries that generate stormwater drainage investigations. The Stormwater Division works to investigate these citizen requests in a timely manner and help find a resolution to the issue if public runoff is creating a concern. Resolutions often require engineering support and floodplain modeling to ensure a proposed drainage solution is adequate.

Water Resources has seen an increase in the number of citizen inquiries for stormwater drainage investigations. Stantec will provide project management and engineering services to help investigate, model, and design engineering solutions for drainage issues that result from public

runoff or public infrastructure. With Stantec's assistance, Water Resources will be able to work with the citizen and other Departments to more efficiently address stormwater concerns.

Stantec, Inc. is a Water Resources on-call engineering firm selected in November 2022. The Stantec project team will consist of JC Waller and Associates an MBE for 10% of the total contract amount.

**BUDGET IMPACT:**

Funding in the amount of \$ 380,000 is budgeted in the Water Resources Stormwater Operating Fund.

**ACCOUNT NUMBER:**

506-7022-01.5413

**RECOMMENDATION / ACTION REQUESTED:**

It is recommended that City Council approve the Professional Services Contract with Stantec Consulting Services, Inc. for \$380,000.
