

# TRIAD HEALTH PROJECT

Our  
future  
free  
from  
HIV.

May 1, 2024

To Whom it May Concern,

Triad Health Project would like to express our intention to work with the City of Greensboro and Guilford County on the Executive Suites Project with the mutual goal of providing supportive and sustainable housing for medically fragile people in our community who are currently unhoused.

Triad Health Project feels confident that our mission and goals as a sexual health and justice agency align with the city's intention to utilize HOPWA funding to purchase the Executive Suites property on Summit Avenue. We feel it is in the best interest of our clients to be involved with this project.

We thank the City of Greensboro and Guilford County for their continued partnership in serving our clients.

En Comunidad,

Adriana Galdo Adams

Executive Director

Triad Health Project
