

PL(Z) 24-15
City of Greensboro Planning Department
Zoning Staff Report

City Council Hearing Date: July 16, 2024

GENERAL INFORMATION

APPLICANT Hugh Latham of Centurion Buyers, LLC

HEARING TYPE Annexation and Original Zoning Request

REQUEST County RS-40 (Residential Single-family) to City CD-R-7 (Conditional District Residential Single-family - 7)

CONDITIONS 1. Permitted uses shall be limited to a maximum of 10 single family lots

LOCATION 3196-ZZ StonyPointe Drive

PARCEL ID NUMBER(S) 7872579734

PUBLIC NOTIFICATION The notification area for this public hearing was 750 feet (Chapter 30-4-1.4 of the Land Development Ordinance requires notification of the owner of that parcel of land and the owners of all parcels of land adjoining and contiguous to that parcel of land as shown on the County tax listing). **72** notices were mailed to those property owners in the mailing area.

TRACT SIZE 2.426 acres

TOPOGRAPHY Slopes to the rear of the property

VEGETATION Wooded

SITE DATA

	Existing Use	Undeveloped land
	Adjacent Zoning	Adjacent Land Uses
N	County RS-40 (Residential Single-family)	Single-family dwelling
E	County RS-40 (Residential Single-family) and County RS-3 (Residential Single-family)	Single-family dwellings
S	County RS-3 (Residential Single-family)	Single-family dwellings

W County RS-40 (Residential Single-family) Single-family dwelling

Zoning History

Case #	Effective Date	Request Summary
N/A	N/A	The subject property is not currently located in the City's jurisdiction.

ZONING DISTRICT STANDARDS

District Summary *

Zoning District Designation:	Existing County RS-40	Requested City CD-R-7
Max. Density:	1.1 dwelling per acre	Permitted uses shall be limited to a maximum of 10 single family lots
Typical Uses	Typical uses in the County RS-30 district include single-family dwellings with a density of not less than 1.1 units per acre.	Typical uses in the R-7 district include single family residential of up to 7 dwelling units per acre.

**These regulations may not reflect all requirements for all situations; see the City of Greensboro Land Development Ordinance for all applicable regulations for site requirements for this zoning district.*

SPECIAL INFORMATION

Overlay District Ordinance/Historic Preservation

The subject site is not located within an overlay district.

The subject site is not:

- Located in a City of Greensboro Historic District or Heritage Community
- Designated as a Guilford County Landmark Property
- Recognized as a State of North Carolina Historic Site
- Listed in the National Register of Historic Places
- Located in a National Register Historic District

Environmental/Soils

Water Supply Watershed Site drains Lake MackIntosh WS-IV, Watersupply Watershed, Little Alamance Creek Sub-basin

Floodplains N/A

Streams N/A

Other: Site must meet current watershed requirements, Water Quality and Water Quantity Control must be addressed for the entire development. Water Quality must treat the first 1” of rainfall. Water Quantity Control must reduce the 1yr, 2yr & 10yr 24hr storms to pre-development levels. All BUA must be treated by a

State approved water quality BMP/SCM. Maximum BUA for High Density is 70% with sewer, Low Density is 24%.

Utilities (Availability)

Water and Sewer are available on Stonypointe Drive. Private Developer will need to extend water and sewer to City of Greensboro’s Water and Sewer Design Standards.

Airport Overlay District & Noise Cone

N/A

Landscaping & Tree Conservation Requirements

There are no Landscaping or Tree Conservation requirements for single-family residential uses.

Transportation

- Street Classification: Stoneypointe Drive – Local Street.
Liberty Road – Minor Thoroughfare.
- Site Access: All access(es) must be designed and constructed to the City of Greensboro standards.
- Traffic Counts: None Available.
- Trip Generation: N/A.
- Sidewalks: Sidewalks are a requirement of the Development Ordinance and shall be installed per the Streets Design Standards Manual. Sidewalk does not exist along the frontage of this property.
- Transit in Vicinity: No.
- Traffic Impact Study: No TIS required per Ordinance.
(TIS)
- Street Connectivity: N/A.
- Other: N/A.

IMPACT/POLICY ANALYSIS

Land Use Compatibility

The proposed **City CD-R-7 (Conditional District Residential Single-family - 7)** zoning district would allow land uses that are compatible with the general character of the area.

GSO2040 Comprehensive Plan Policies

The **GSO2040** Future Land Use Map designates this location as **Residential**. The **GSO2040** Future Built Form Map designates this location as **Urban General**. The subject property is located in **Growth Tier 1** of the Growth Tiers Map. The requested **City CD-R-7 (Conditional District Residential Single-family – 7)** zoning district would allow uses that are included in the **Residential** future land use and future built form designations. While the area is marked as “Residential” future land use, these categories are not intended to be exclusive. It is assumed that there are a variety of uses in each area. Housing is a use that supports employment opportunities

in nearby industrial locations and is appropriate at this location given the existing and planned road network.

GSO2040 Written Policies:

Filling In Our Framework – How we arrange our land uses for where we live, work, attend school, shop and enjoy our free time can create a more vibrant and livable Greensboro.

Goal C – People choose to live in Greensboro because every neighborhood is safe and has convenient access to first-rate schools, services, shopping, parks, and community facilities.

Strategy 2 – Invest in building and maintaining quality, accessible public recreation centers, libraries, neighborhood park facilities and other services to sustain livable neighborhoods.

Creating Great Places – Creating interesting and attractive places and vibrant public spaces in neighborhoods, across Greensboro, in downtown and with our historic resources.

Goal A – Greensboro’s citywide network of unique neighborhoods offer residents of all walks of life a variety of quality housing choices

Strategy 2 – Meet housing needs and desires with a sufficient and diverse supply of housing products, prices and locations.

GSO2040 Map Policies:

Future Land Use Map

Future Land Uses: Broad areas based on the main character of land uses that we want to see in the future. These are not intended to be exclusive; it is assumed that there are a variety of uses in each area, but the designation reflects the area’s predominant character.

Residential: Includes both single-and multi-family residential. Other uses should generally be in the scale of a Neighborhood- or a District- Scaled Activity Center as described in the Future Built Form Map, in a form that is appropriate to the character of the area. Many residential areas include commercial corridors, and future development along these corridors should be oriented to the corridor to avoid negative impacts to adjacent residences.

Future Built Form

Place Types: Areas that have a consistency of character, identity or purpose and that are most often bounded by corridors, natural features, or parks that create transition or separation from other neighborhoods that may not share the same characteristics.

Urban General should reflect these characteristics:

1. Setbacks, building orientation, building materials, height, and scale of residential buildings are considered within the existing neighborhood context.
2. New housing helps increase the range of choice, supply, and adds additional appropriately-scaled density with: Missing Middle housing; mid-rise multi-family; and high-rise multi-family in Activity Centers and along Mixed-Use Corridors.
3. Transitions between neighborhoods and different land uses provide continuity in scale, density, intensity with adjacent uses.
4. Cut-through traffic is minimized.
5. New freestanding or expanded business areas are created within or adjoining an existing Activity Center or as part of creating a new Activity Center.

6. Exterior building materials are durable, sustainable, and contribute positively to the character of the public realm.
7. The size and impact of surface parking lots is minimized through landscaping, screening, narrow curb-cuts, and use of glare-free, no-spill lighting.
8. New sidewalks contribute to the completion of a sidewalk network.

Growth Tiers Map

Growth Tiers: areas outside Greensboro's city limits but inside the area in which the City can legally annex property and extend water and sewer services; this is called the Water Sewer Service Area (WSSA). Three tiers are delineated based on the cost to extend City services to the area, primarily water and sewer, solid waste collection, and Police and Fire protection, as well as long-term maintenance of City facilities. In Growth Tier 1, due to the nearby presence of existing City infrastructure, the City is able to extend services currently, if an annexation is requested; Tiers 2 and 3 will require significant City investment to serve.

Growth Tier 1: This is the area where infrastructure systems are in place, can be economically provided and/or will be proactively extended and where continued annexation and consolidation of the City's development pattern shall be encouraged over the next six years.

CONFORMITY WITH OTHER PLANS

City Plans

Sustainability Action Plan

Element 1) Transportation and Land Use:

Policy 1) Encourage increased density, a mix of land uses and more integrated links between transportation and land use through changes to Greensboro's Comprehensive Plan, Development Ordinance and other related plans.

Other Plans

N/A

STAFF ANALYSIS AND RECOMMENDATION

Community Outreach

Applicant is strongly encouraged to discuss this proposed original zoning and development with the surrounding community.

Staff Annexation Analysis

The subject property is currently located in the County. On September 1, 2020 the Planning and Zoning Commission assumed responsibility for reviewing annexation petitions and making a recommendation to City Council regarding annexation requests. Upon submittal of a valid annexation petition, Planning staff forwards annexation requests to City services providers. These service providers include Water Resources (water and sewer), Fire Marshal's Office, Police Department, and Solid Waste (trash and recycling services). Each service provider stated that infrastructure is in place to provide City services to this location. The Technical Review Committee recommended approval of this annexation request at its June 6, 2024 meeting. The subject property is located within the Tier 1 Growth Area on the Growth Strategy map in the Comprehensive Plan. Since this property can be served by City utility providers, it is the City of Greensboro's policy to annex the property pending approval of the associated original zoning.

Staff Original Zoning Analysis

The subject property is approximately 2.426 acres and contains undeveloped land. North and west of the request contains a single-family dwelling, zoned County RS-40 (Residential Single-family). East of the request contains single-family dwellings, zoned County RS-40 (Residential Single-family) and County RS-3 (Residential Single-family). South of the request contains single-family dwellings, zoned County RS-3 (Residential Single-family).

The proposed original zoning request supports both the Comprehensive Plan's Creating Great Places goal to expand Greensboro's citywide network of unique neighborhoods offering residents of all walks of life a variety of quality housing choices and the Building Community Connections strategy to work to ensure the quality, quantity, and diversity of housing choices across and between neighborhoods.

The Comprehensive Plan's Future Land Use Map designates this property as Residential. The Residential designation includes both single-and multi-family residential uses. Other uses should generally be in the scale of a Neighborhood or a Community Center as described in the Future Built Form Map, in a form that is appropriate to the character of the area. Many residential areas include commercial corridors, and future development along these corridors should be oriented to the corridor to avoid negative impacts to adjacent residences.

The Comprehensive Plan's Future Built Form Map currently designates this property as Urban General. Applicable characteristics of the Urban General classification include, but are not limited to the following:

1. Setbacks, building orientation, building materials, height, and scale of residential buildings are considered within the existing neighborhood context.
2. New housing helps increase the range of choice, supply, and adds additional appropriately-scaled density with: Missing Middle housing; mid-rise multi-family; and high-rise multi-family in Activity Centers and along Mixed-Use Corridors.
3. Transitions between neighborhoods and different land uses provide continuity in scale, density, intensity with adjacent uses.
4. Cut-through traffic is minimized.
5. New freestanding or expanded business areas are created within or adjoining an existing Activity Center or as part of creating a new Activity Center.
6. Exterior building materials are durable, sustainable, and contribute positively to the character of the public realm.
7. The size and impact of surface parking lots is minimized through landscaping, screening, narrow curb-cuts, and use of glare-free, no-spill lighting.
8. New sidewalks contribute to the completion of a sidewalk network.

The proposed R-7 zoning district would permitted uses that are compatible with those existing on adjacent tracts. This request is consistent with the intent and purpose of the zoning code, the Comprehensive Plan (GSO2040), and is generally compatible with the existing development and trend in the surrounding area.

Staff Recommendation

Staff recommends **approval** of the requested **City CD-R-7 (Conditional District Residential Single-family – 7)** zoning district.
