PURPOSE:

The City of Greensboro Department of Water Resources is requesting funding for a three-year contract for Standby Power Generator Maintenance.

BACKGROUND:

The Water Resources Department is responsible for maintaining the City of Greensboro's backup power generators and fuel systems at the water and wastewater treatment facilities. These backup systems require annual and quarterly preventative maintenance to keep the oil, coolant, fuel, batteries, electrical, exhaust, controls, and other miscellaneous items in working order. Water Resources issued a Request for Proposal (RFP) on January 16th, 2025. The M/WBE office advised the department of 40 registered M/WBE firms for this service, which were solicited via email. The City received one responsive bid for this service.

A selection committee reviewed the submitted bid and evaluated it based on responsiveness to the specification criteria, understanding of the work needed, qualifications, capacity, availability and flexibility of the consultant, local preference, M/WBE utilization, and cost. Carolina 1926 LLC, a non M/WBE vendor, was selected to complete the required generator maintenance.

Vision Statement: "A Community with Endless Economic Opportunities and Exceptional Quality of Life."

BUDGET IMPACT:

Funding for this service is budgeted under the Water Resources Department in an estimated annual amount of \$111,000.00 with a total potential contract award amount of \$333,000.00.

ACCOUNT NUMBER:

501-7023.01.5621 - \$55,500

501-7056.01.5621 - \$55,500

RECOMMENDATION / ACTION REQUESTED:

It is recommended that City Council approve the contract award in the amount of \$333,000 with Carolina 1926, LLC for Generator Maintenance Services.
